About Me

I'm a self-taught web developer with over 3 years of experience. I specialise in front-end development and have good understanding of UI/UX design principles. I also have over 5 years of sales & business experience working as a manager in one of our family stores, and am an aspiring novelist.

Skills

Programming: JavaScript, jQuery, PHP, Python, Java
Front-end: HTML5, CSS3, SASS, Bootstrap, React, Redux
Back-end: Express, PostgreSQL, MongoDB, Node.js
CMS/Tools: WordPress, Git, Docker

Experience

Accent Design Group Ltd — Creative Digital Solutions

ACCENTDESIGN.CO.UK

Full-Time Work
2022 - PRESENT

- Developing bespoke websites & web apps as part of an established software development team.

One Great Work Network

ONEGREATWORKNETWORK.COM

Remote Work
2020 - 2021

- Worked with client to develop several prototype designs with Adobe-XD and static HTML & CSS mockups.
- Built a custom WordPress theme from scratch using HTML, CSS, PHP & JavaScript.
- Worked in conjunction with multiple developers in a team utilising Git (with GitHub).
- Helped research & incorporate a 24/7 live-streaming feature.

Projects

Portfolio Site

HANIF.TECH

Personal Work/Study
2019 - PRESENT

- Built completely from scratch with HTML, CSS, JavaScript, jQuery & PHP.
- Styled with modern CSS animations and responsive layouts like FlexBox.
- Hosts dozens of key personal projects and reference study notes to help other web developers.

Face Detection Web App

SMART-BRAIN-APP-HANZ-4.HEROKUAPP.COM

- A full-stack web application that detects faces on uploaded images.
- Built with React, Node, Express, PostgreSQL & the clarifai image recognition API.
- Has its own custom server & database to manage logins (passwords are securely hashed with bcrypt).

E-commerce Site

CRWN-CLOTHING64.HEROKUAPP.COM

- Built with React, Redux, Firebase, and the Stripe API (user sign-in & authentication is handled with Firebase).
- Has a fully functional cart & checkout system that's integrated with the Stripe API to handle payments.

Other Projects

HANIF.TECH/PROJECTS

- Some of my favourite projects include recreating classic games such as Snake, Breakout & Pong.
- I've also created a paint clone, an online piano, an anime joke teller, and many other interesting projects.
- Please visit hanif.tech or my GitHub profile to demo all my projects & games.
